

WORLD

SOURCEONE

WORLD SOURCE ONE is your "Exact Fit" maintenance free battery for import and domestic vehicles. These original equipment designed batteries are manufactured to meet or exceed OE power ratings, cover designs, dimensional configurations, case hold-down requirements and venting systems of the original battery.

Exact fit means no retrofit which saves time, money and gives your customer confidence they have a battery that looks and performs like the original specified battery.

The WORLD SOURCE ONE battery is for the discriminating installer and customer that want proven quality, precision OEM engineering and the look and performance of the original equipment battery.
