SMART GROUPS

WORLD PAC is dedicated to the success of the independent service center owner. Your success is our success. In late 2006 we organized a group of service centers to test a program dedicated to helping independent owners increase their bottom line. This was accomplished by tracking all the prime indicators measuring business performance, sharing ideas, as well as training in the main areas of business. Groups meet 4-5 times a year and report their progress to a facilitator on a monthly basis. These groups, with the guidance of an experienced facilitator, discuss each member's area of difficulty and offer suggestions for improvement. Our groups have shown a steady increase in all their indicators and it shows on their bottom line. We are now expanding these groups to other markets:

- *Meet with a non-competing group of business owners who share your same issues and goals*
- *Learn to locate your problem areas and get solutions*
- *Work on your business instead of in your business*
- *Have your own support group to help you build a more solid business*
- *Learn to build a team so you can be free to run the business*
- *Have all the numbers for your business at your finger tips when you need them*
- *Compare yourself to other businesses*
- *Increase your bottom line*
- *Get the up-to-date training before anyone else*
- *Make yourself accountable to be on track*

There is no contract to sign. You may opt-out at any time with a 30 day written notice. All this support for only \$325 a month, including facilitator, group administrator, materials and binder.

WORLD PAC  sponsors all meeting venues including lunch and refreshments.
