# ***Autologic. Capability in your hands... ...Our expertise at your call***

**Master Technician support. Dealer-level software.**

## ***Dealer-level software for eight premium vehicle manufacturers...***

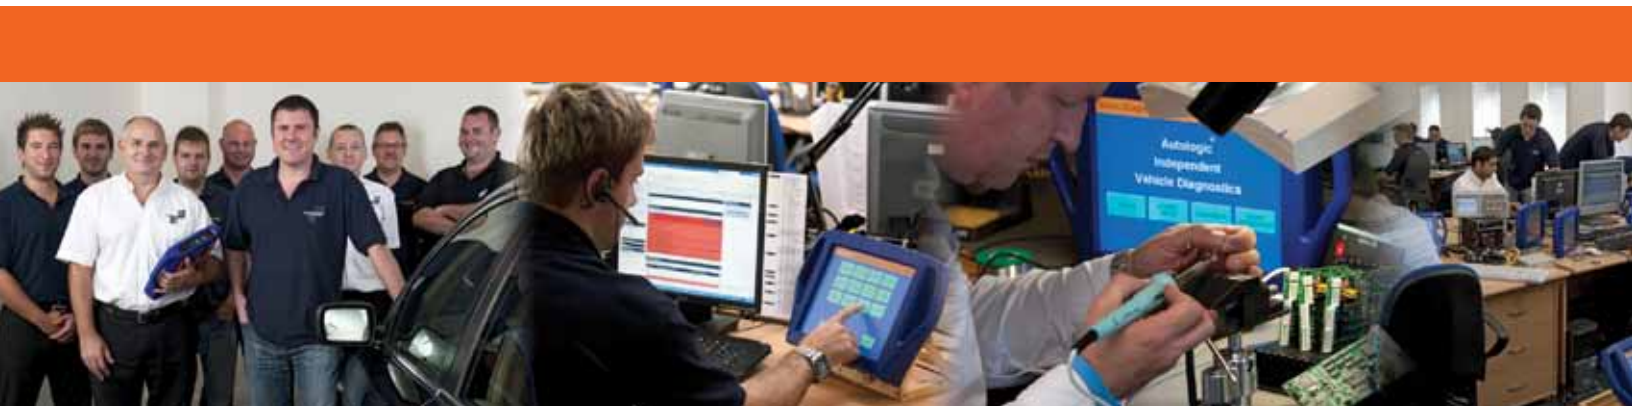

Autologic covers all systems and functions, with ECU Flash programming (Some systems on Mercedes and VAG still under development), ECU Coding, service functions, diagnostic trouble codes (DTC's), live data/component actuations, data logging, real-time software updates via the internet, and performance tunes on selected brands

## ***Combined with unrivalled technical support from Master Technicians and specialist software engineers...***

Autologic Diagnostics has 20 factory-trained Master Technicians providing telephone and email support, 40 brand-specialist software engineers providing real time fixes, as well as technical support in the UK, USA, and Hong Kong serving all time zones. *Autologic* also has an internet portal for users, local distributor support, and a training academy designed to further knowledge of vehicle systems and increase technical understanding.

## ***The Autologic Solution gives independent garages confidence***

The *Autologic* Solution gives independent garages the confidence to undertake any service and repair work required, removing the need for dealer intervention. With the *Autologic* independent garages have the ability to carry out full diagnostics on all vehicle systems. It allows for the coding and programming of ECUs on site.
