

BMW ISTA

TOPICS COVERED

- **Integrated Service Technical Application - ISTA** Training for Dealer Level Diagnostics and Programming for both MINI/BMW.
- **BMWIS** website navigation to efficiently locate elusive information found nowhere else.
- Vehicle connection information, scanning for faults, using guided troubleshooting test plans.
- Filter through multiple faults that BMW/MINIs can store; and quickly get to the root cause of the customer's concern. Identify and eliminate erroneous faults and unnecessary test plans.
- Launch and use the **Aftersales Information Research - AIR** application to locate VIN specific Bulletins, Wiring Diagrams, Repair Instructions, and labor times within a single user interface.
- Navigating new wiring diagrams with hyperlinks to connector locations, views, and wiring color codes.
- Procedural information on Coding, Programing and performing Retrofits using ISTA/P.
- Setting up an ISTA system, choosing the correct equipment for your shop.
- Troubleshooting your system and getting tech support from BMW.
